SERVE AMERICA'S BEST SPRING WATER

Source, minerality, pH balance, authenticity, sustainability and history. These terms define a philosophy and nutritional balance in quality food and beverages; including the water you serve.

At The Mountain Valley, we pride ourselves on truth, integrity, and pure American spring water. Rising naturally from a spring in the Ouachita mountains, our spring water filters through granite-based aquifers collecting all the goodness from the land. The result is water that is sodium-free with a naturally high, detoxifying 7.8 pH and rich blend of calcium and potassium. Bottled in glass to preserve the quality and taste.

We have been America's choice of premium spring water since 1871 and named "Best Tasting Water in the World" four times.

Serve the pure, domestic, unprocessed bottled water that shares your ethos and commitment to quality.

A NATURAL CHILL

Sourced from the crisp springs running from Mexico's tallest mountain, Citlaltépetl, Tehuacán Brillante is the legend of Tehuacán's healing waters in bottle form.

Water from Citlaltépetl's glacier-topped peak is naturally mineralized during its eight-year journey through the mountain's rich volcanic rock. This makes it one of the purest natural waters available.

Tehuacán Brillante is then infused with effervescence for a crisp mouth-feel and extra-dry refreshment.

- Premium quality
- Natural flavor
- Unparalleled freshness
